

CT200 CONDENSATE DRAIN PAN TREATMENT TABS

DESIGNED FOR HVAC SYSTEM DRAIN PANS

Untreated residential condensate pans can create scale build-up, offensive odors, clogged drains and water damage from pan overflow. The use of Beckett Condensate Pan Treatment Tabs will help to lower maintenance and service costs brought on by heavy build-up in the condensate pan.

FEATURES & BENEFITS

- Helps keep condensate drain pans and condensate drain pipes clean and clear
- Eliminate foul water odors
- Biodegradable, non-corrosive long lasting formula
- Bottle contains 200 tablets

APPLICATION & INSTRUCTIONS

- Residential HVAC drain pans
- Tablets should be placed away from the drain, and in a location where they will make the most contact with dripping condensate
- Initial dose: 2 tabs per 1 ton of A/C unit
- Maintenance dose: 1 tab per month per ton of A/C unit
- If excessive build-up and odors are present, add (double dose) 4 tabs/1 ton of A/C system capacity and repeat cycle until system is clean
