

CB25 Large Condensate Pump

Beckett's family of large condensate pumps is ideal for higher volume condensate removal applications. Each pump operates quietly, efficiently and offers such features as a built-in safety switch and a one gallon tank. Power connection is hard wired with an UL rated terminal block. All pumps are UL/CUL listed. This unit is capable of handling acidic condensation from condensing furnaces and tankless water heaters.

FEATURES

- Available in 115, 230
- 25 ft. max lift
- 3/8" OD copper discharge
- 1.1" diameter inlet with 5/8" ID grommet
- HT models rated up to 212 degrees F
- 1 gallon tank capacity
- Automatic on/off operation with separate overflow detection switch
- Thermally protected fan cooled motor
