

Item# 7201910

Model# 5XBIO

Beckett 5X Biological Filter

Beckett bio-filters efficiently process waste, clarify the pond water, and reduce ammonia and nitrates by promoting the rapid growth of beneficial bacteria. Bio-filters provide more efficient filtration as compared to just mechanical filters. This filter creates the ideal ecosystem for ponds with fish.

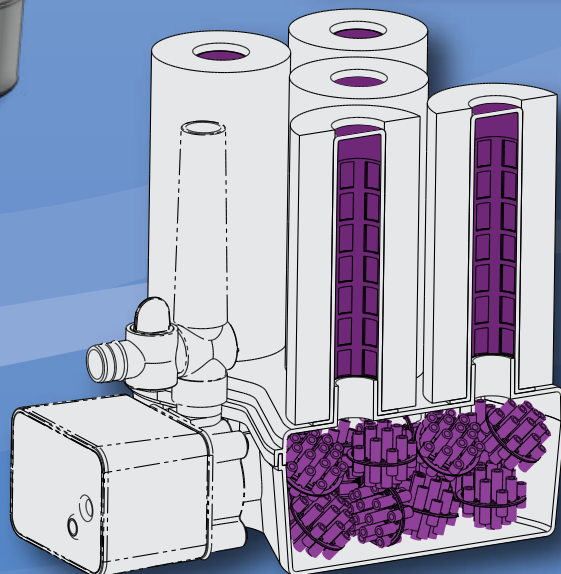

Fits Beckett® FR pond pumps and
Beckett® DP waterfall pumps
(Not Included)

- Designed specifically for use with FR model pumps.

*Pump not included

- Foam filters and bioballs create a perfect environment for beneficial bacteria to thrive.

- An easy and simple way to filter your pond for clean and clear water.
