

GP325 PARTS WASHER PUMP

FOR 115V,60Hz or 230V, 50/60Hz

Beckett's submersible pump line offers top of the line epoxy encapsulated (not oil filled), 115V,60Hz or 230V, 50/60Hz design to meet all your continuous duty requirements. They are low maintenance, environmentally safe, and can be used in a variety of industrial applications. Each pump features a heavy-duty motor for maximum output and reliability.

GP325VH is ideal for most solvent or aqueous parts washer solutions up to 340GPH@1ft. with a maximum pumping height of 12ft. This model has a FKM shaft seal and a threaded cord exit for mounting in a parts washer.

FEATURES:

- Fully submersible
- Epoxy encapsulated
- FKM shaft seal
- Corrosion resistant polyester housing
- 1/4" MNPT discharge, fits 1/2" ID PVC tubing
